Also, in accordance with 43 CFR 3420.1-2, this notice serves as a call for coal and other resource information to solicit indications of interest and information on coal resource development potential in the proposed project area and on other resources which may be affected by the proposed project. Affected Federal Lands are administered by the BLM Rawlins District office. The EIS

will be prepared by a third party contractor.

DATES: Comments on the scoping process will be accepted through March 1, 1996. Public scoping meetings are not planned at this time.

Most of the subject area is within the South Baggs Oil and Gas Unit and not subject to spacing restrictions. Drilling of exploratory or confirmation/delineation wells on existing Federal leases will be permitted during the preparation of the EIS, on a case-by-case basis. A site-specific environmental assessment will be prepared for individual drilling proposals for each of these applications.

This EIS will address cumulative impacts and will include consideration of effects of other proposed oil and gas projects, addressed in the recently completed EISs for the Mulligan Draw Gas Field Project, the Creston/Blue Gap Natural Gas Project, the Greater Wamsutter II Natural Gas Project and the Continental Divide Project Development Area.
